WE ARE HIRING A JUNIOR PROJECT MANAGER

company | about us

At Easywalker we develop strollers and buggies that stimulate parents to go out and explore the world with their child. Our company entered the market in 1989 with the introduction of a radical new stroller concept: the first three-wheel stroller in Europe. That challenger mentality is still very much alive and we pride ourselves in making products that are easy to use, cleverly designed and highly comfortable for parents and kids. We are constantly looking for new ways to make parents “walk” more “easy”. Because we believe that happiness lies in connecting with the world and the people around you.

Still based in Amsterdam, we now service 45 countries by offering products under three separate brands: Easywalker, MINI by Easywalker and Disney by Easywalker. All clearly positioned propositions with their own product assortment and marketing approach.

We are a closely connected and dedicated team. Everyone ‘eats and dreams’ our branded strategy and works from a strong entrepreneurial spirit. We want to continue to challenge, we want to continue to innovate, we want to continue to grow.

position

We have a fantastic opportunity for a Junior Project Manager in our product development team. You will work on product development projects starting from conceptualization up till the point the product goes into production. During the development phase you work closely together with engineers and designers to create easy-to-use and beautiful products. You are in daily contact with our suppliers in China. You take responsibility for perfect execution of the projects and report to the Product Launch Manager.

You are a strong and structured personality, with an entrepreneurial spirit. You love products (esthetically and technically). You have an operational mind-set and a good understanding of the essence of the project at hand. At the same time, you have a great eye for detail, like to challenge ideas and can develop a great understanding of the brands. You work like a spider in the web, with all the internal and external stakeholders.

responsibilities

- Prepare briefing notes and support in analysing work flow
- Monitor and track project milestones and deliverables
- Establish priorities and set deadlines
- Consult with users, management, vendors, and technicians to assess needs and progress; resolve or escalate issues as needed
- Oversee adherence to budget, schedule, quality, and scope
- Prepare and present project status

desired skills & expertise

- Bachelor's degree in Industrial Product Design (IPO) or relevant technical field or a Master Degree in a relevant technical field
- 2+ years of experience
- Ability to work in a dynamic environment
- Team player with a hands-on entrepreneurial mentality
- Excellent written/verbal communication, interpersonal, and relationship building skills
- Highly organized with a strong attention to detail

- Ability to communicate information and ideas effectively, both in writing and verbally
- Results oriented with strong orientation to time management, and project delivery
- Excellent multi-tasker
- Ability to balance a broad range of internal and external factors when identifying problems, proposing solutions, and making decisions
- Willing to travel to China average 4-6 times per year
- Knowledge of Outlook, Excel and Powerpoint
- Knowledge of the stroller industry is a great plus
- Knowledge of Solidworks or similar CAD software is a plus

our offer

- Remuneration in line with experience and expertise.
- A great office, at a great location in Amsterdam Zuid.
- A platform to develop yourself as a person and as an entrepreneurial professional.
