

We are looking for a Financial Controller with an entrepreneurial mindset

company | about us

Easywalker develops award winning, high quality and stylish strollers and accessories. Our company entered the market in 1989 with the introduction of a radical new stroller concept: the first three-wheel stroller in Europe. This innate challenger mentality is still very much alive and resulted in fast growth in the last few years. From a strong identity and vision, we want to bring innovation to the industry and create a 'love brand' that will be embraced by our consumers.

Next to the Easywalker brand, we developed the MINI by Easywalker and Disney by Easywalker brands. Three clearly positioned propositions with their own product assortments and marketing approach.

In Northern Europe, we sell directly to (large) retailers from our headquarters in Amsterdam. In the other 45 countries, with a focus on Europe, Asia and the Middle East, we are represented by exclusive distributors. The combination of strong marketing, new products and stimulating sell-through on the shop floor we will grow our revenue. We are a closely connected and dedicated team. Everyone 'eats and dreams' our branded strategy and works from a strong entrepreneurial spirit. We want to continue to challenge, we want to continue to innovate, we want to continue to grow.

position

We currently have a fantastic opportunity for a Controller, reporting to our Finance & Operations Manager, to join our dynamic and growing team. We expect you to be a logical and analytical thinker, ready to get their hands dirty. In this role you will give guidance to our small finance team in a wide span of finance and operational processes to assist in our expansion and international growth. You will build the bridge between the administration, the back-office processes and commerce. Next to reporting the financial progress of the company, you will pro-actively advise the Management on business improvements. You will make the financial business planning for the general strategy and for specific new business initiatives.

The growing nature of the company will give you a lot of room to create your own systems, processes and reports. We encourage entrepreneurship and look forward to you adding your value to the company with your insights and advice.
